**NOTE:** Salt and Brackish water setbacks:

- 1,500' from breaking surf / coastline
- 800' from large bay / inlet / canals
- 400' from marsh / tributary

**NOTE:**  
300' setback from  
breaking surf &  
0' from brackish water

**NOTE:**  
No setback from  
breaking surf or  
brackish water

If you love the idea of a strong, durable metal roof but need extra protection from salty coastal air, **Armored Coast™** could be the perfect choice. It offers the strength of steel—great for handling hurricane-force winds — while also resisting saltwater corrosion much better than standard steel. You can install **Armored Coast™** as close as **300 feet from breaking surf**, giving you coastal performance without paying the high price of aluminum.

## CHOOSE ARMORED COAST

- ✓ Corrosion resistance and cut-edge protection up to 300' feet from breaking surf and zero set back from all other coastal waters
- ✓ 20-Year Substrate Warranty
- ✓ 50-Year "**OceanGuard™**" Paint Finish Warranty
- ✓ Cut edge rust protection
- ✓ 50 KSI steel, meeting all standard testing

**AVAILABLE FOR 16" PROFILES:** *24 Gauge Only*  
**GULFLOK™ / GULFSNAP™ / VERSALOC™**
